Electroconductive Rubber Feet

**Features**
- Highly conductive rubber feet are excellent for static electricity prone desktop equipment.
- Made of rubber with a Specific Volume Conductivity of 10^2 Ω cm.
- Excellent for static sensitive applications such as desktop assembly of electronic components and PC boards.

**Materiel:** Body: Conductive NBR, Washer: 304 Stainless Steel

**Specfic Volume Resistivity**
- Measuring Method: JIS K 6301
- The above values are not guaranteed values but an example of measured values.

**Part Number**
- ECRK
- E
- Below is the shape for No.10.
- Below is the shape for No.3617.

**Characteristic Values**
