**Magnets with Holders**

**High Strength Flush / High Strength / Thin**

- **Features**
  - Highest attraction force compared with magnets of the same size.
  - No grooves or bumps on surfaces to collect dust.

- **Strength**
  - Neodymium Magnet
  - Heat-Resistant

- **Surface Magnetic Flux Density**
  - Gauss [G]

- **Part Number Example**
  - HXSNS
  - Neodymium Magnet
  - Heat-Resistant

- **Attraction Force and Surface Magnetic Flux Density**
  - For reference only.

- **Part Number**
  - MxP
  - L
  - Material
  - Treatment
  - Surface Treatment
  - Heat Resistance
  - Temperature
  - Material
  - Surface Treatment
  - Heat Resistance
  - Temperature

**Magnets with Holders**

**H7 Tolerance / Super Thin / Cap / Eccentric Mount**

- **Part Number Example**
  - HXG
  - Super Thin
  - Cap

- **Attraction Force and Surface Magnetic Flux Density**
  - For reference only.

- **Part Number**
  - D
  - L
  - Material
  - Treatment
  - Surface Treatment
  - Heat Resistance
  - Temperature

**Small Parts / Magnets**
