Accessories for Aluminum Extrusions

Accessory Hooks / Slide Hooks
J-Shaped / U-Shaped / Clip Type

Accessory Hooks – J-Shaped

<table>
<thead>
<tr>
<th>Part Number</th>
<th>Allowable Load (kgf)</th>
</tr>
</thead>
<tbody>
<tr>
<td>HFCFJ</td>
<td>1.8</td>
</tr>
</tbody>
</table>

Accessory Hooks – U-Shaped

<table>
<thead>
<tr>
<th>Part Number</th>
<th>Allowable Load (kgf)</th>
</tr>
</thead>
<tbody>
<tr>
<td>HFCFU</td>
<td>1.8</td>
</tr>
</tbody>
</table>

Accessory Hooks – Clip Type

<table>
<thead>
<tr>
<th>Part Number</th>
<th>Allowable Load (kgf)</th>
</tr>
</thead>
<tbody>
<tr>
<td>HFCFK</td>
<td>2.5</td>
</tr>
</tbody>
</table>

Application Example
- 20 pcs. per clip
- When using No. 8 for HFS8-45, the fit becomes slightly firmer.

Slide Hooks

<table>
<thead>
<tr>
<th>Part Number</th>
<th>Allowable Load (kgf)</th>
</tr>
</thead>
<tbody>
<tr>
<td>HFCFS</td>
<td>1.0</td>
</tr>
</tbody>
</table>

Application Example
- 20 pcs. per clip
- When using No. 8 for HFS8-45, the fit becomes slightly firmer.

Casters & Leveling Mounts Assembly
Side Mount

Part Number | Allowable Load (kgf) | Screws / Nut | Screws / Nut |
<table>

</tbody>
</table>

Features
- Post-assembly fitting is possible.
- Quake-resistant capability can be obtained by mounting optional anchor brackets (P.3183) and anchor bolts.
- Can be installed on the aluminum extrusions by simply tightening screws from the side. Installation is easy and workers are not required to crawl on the ground to install the mountings.
- Symmetrical positioning can be obtained by mounting optional anchor brackets (P.3183) and anchor bolts.
- Anchor Bracket (P.3382):
  - Mount this to the side of the extrusion and the Anchor Bracket (P.3382) to obtain highly stable and safe support.
  - The unique position can be achieved by simply tightening screws from the side. Not necessary for workers to crawl on the ground to install the mountings.
  - Anchor Brackets (P.3382):
    - Easy to install and can be used for almost all applications.

Installation Method
- Insert a protrusion of the slide hook into the slot to the direction of the arrow.
- Slightly lean the slide hook and move it noting for the arrow direction.
- Insert a slide hook into the slot while rotating for the arrow direction.
- Install a slide hook into the slot while rotating for the arrow direction.

Material
- Polyacetal (White)
- Polyamide SWC Trivalent Chromate
- Conductive MC Nylon
- Conductive Type Wheel

Surface Treatment
- Chromate (Black)
- Chromate (White)
- Trivalent Chromate (Black)
- Trivalent Chromate (White)
