### JIS B 2401 P Series (For Mounting, Dynamic)

#### Overview

- **Type**: O-Ring
- **Series**: P Series
- **Material**: Various types including Fluoro Rubber, Silicone Rubber, Nitrile Rubber, etc.
- **Applications**: For high pressure and performance requirements.

#### Specifications

- **Nominal Number**: Various sizes denoted by Type and Number.
- **D**: Diameter in millimeters.
- **T**: Thickness in millimeters.
- **Matching Material**: Suitable for various applications.

#### Detailed Fitting Sizes

- **Part Number Example**: NPS25.5

---

### JIS B 2407 Back-Up Rings (For the P Series – Bias Cut)

- **Material**: NBR (Nitrile Rubber), FKM (Fluoro Rubber), etc.
- **Applications**: For preventing leakage and providing structural support.

#### Specifications

- **Type**: O-Ring, P Series
- **Nominal Number**: 15, 16, 20, 25, 30, 35, 40, 45, 50
- **D**: Diameter in millimeters.
- **T**: Thickness in millimeters.
